

Chaperone Policy

CHAPERONE POLICY (Short version)

The Scottish Vein Centre (SVC) is committed to providing a safe, comfortable environment where patients and staff can be confident that best practice is being followed at all times and the safety of everyone is of paramount importance.

All patients are entitled to have a chaperone present for any consultation, examination or procedure where they feel one is required. This chaperone may be a family member or friend. It is our routine practice to always have a formal chaperone to be present ,i.e. a trained member of our nursing staff.

Wherever possible we would ask you to make this request at the time of booking appointment so that arrangements can be made and your appointment is not delayed in any way. Where this is not possible we will endeavour to provide a formal chaperone at the time of request, as our routine practice.

Your healthcare professional may also require a chaperone to be present for certain consultations in accordance with our chaperone policy.

Please ensure you tell our SVC manager / administrator at your first time of booking if you have any communications , mobility or other special requirements.

If you would like to see a copy of our full SVC Chaperone Policy 2024 or have any questions or comments regarding this please contact the SVC manager info@scottishveincentre.co.uk
